

**Amendments to the Specification:**

Please replace the paragraph numbered [0051] on page 3 of the published application with the following rewritten paragraph:

[0051] FIGS. 3A through 3D show exemplary embodiments of several display sequences.

Please delete the paragraph numbered [0056] on page 3 of the published application.

Please replace the paragraph numbered [0077] on pages 5 and 6 of the published application with the following rewritten paragraph:

[0077] FIGS. 3A through 3D show exemplary embodiments of several display menu sequences. These display sequences may be stored in the memory device of the electronic timer device. Menu 301 shows various information items, or other menus that may be accessed at this menu level including parking and parking meter information 302, alarm information 303, oil change information 304, inspection date information 305, additional reminder information 306, honing device controls 307, phone bank information 308, calendar setting information 309, alarm setting information 310 and external device connection information 311. The menus shown are exemplary, and other menu sequences and menu selections may be used.
